ABOUT

We are thrilled to announce the second edition of IFMA Global Africa conference scheduled to take place on 19th - 20th August in the vibrant, cosmopolitan and aquatic splendor city of Lagos, Nigeria. This impacting event marks a significant milestone for International Facility Management Association (IFMA) as it brings together professionals, thought leaders and experts from the FM community across the Africa continent.

IFMA Global Africa aims to be a hub for fostering collaboration, knowledge exchange, and innovation within the FM industry. This conference provides a unique platform for professionals to converge and share the latest insights, trends and best practices shaping the field of facility management.

As Africa continues to experience rapid economic growth and development, the role of facility management becomes increasingly crucial in ensuring sustainable, efficient and technologically advanced built environments. IFMA Global Africa seeks to address these challenges and opportunities by facilitating discussions, presentations, and networking opportunities that empower FM professionals to navigate the evolving landscape of their industry.

Attendees can anticipate a dynamic program featuring keynote speakers, panel discussions, interactive workshops and networking sessions. These activities will not only highlight the current state of the FM industry but also provide a glimpse into future trends and strategies.

BUILD BRAND AWARENESS

We invite you to become a sponsor of this event and support the FM community. Your sponsorship will not only contribute to the success of IFMA Global Africa but also align your brand with a pivotal initiative dedicated to advancing facility management excellence in Africa.

IFMA Global Africa is not just a conference; it is a collaborative effort to elevate the profile of facility management in the Africa continent and contribute to its growth and excellence. We invite all FM professionals, stakeholders and enthusiasts to join us in Nigeria for this historic event as we collectively shape the future of facility management in Africa and beyond.
